

THE GREAT SHAKEOUT- SOUTHERN CALIFORNIA

Thurs, October 20th, 10:20 a.m. (Earthquake drill)

To: all parents and students:

Our school will be participating in the above earthquake drill at the assigned date and time. Our students will listen for the sound of a whistle and then **stop, drop and hold on** for an extended period of time until the “all clear” is given.

This drill is very important as it will introduce children to the events of an actual quake and the aftermath.

We practice an earthquake drill every month, however, this drill is designed to allow the Fire Department, Police Department and other agencies to coordinate their efforts.

We encourage parents to practice Earthquake drills at home as well.

Thank you 😊
